„Barrier free concept“

General Information

- The manuals are a comprehensive planning basis for barrier-free building in Berlin's construction
- Along with the instructions, „Barrier free concept“, they intended to provide assistance in the planning process.
- They intend
 WHEN
 WHO
 WHAT has to do.
- The instructions are arranged chronologically by the planning stages of a public construction project in accordance with the General Instructions for the preparation and execution of construction projects in Berlin.

,Barrier free concept'

1. Phase - Program Requirements

- In space, function, and equipment including operating concept are quantitative and qualitative requirements for barrier-free construction to formulate.

„Barrier free concept“

2. Phase - Planning

- The cooperation between owner, planner and consultant has a significant influence on a good result.
- Experts to design for all, advisors and / or affected agencies are involved in the planning process already in the first design ideas
- Participation of People with disabilities or their commissioners
- precise List of requirements

,Barrier free concept'

3. Building design

(design planning, construction planning document, detailed design)

- developed on the basis of further planning
- concept drawings and text to be presented as part of the planning documents in 1:100 scale.

„Barrier free concept“

4. Phase – Detail Design

- Selected details and / or special designs are to specify in a appropriate scale.

„Barrier free concept“

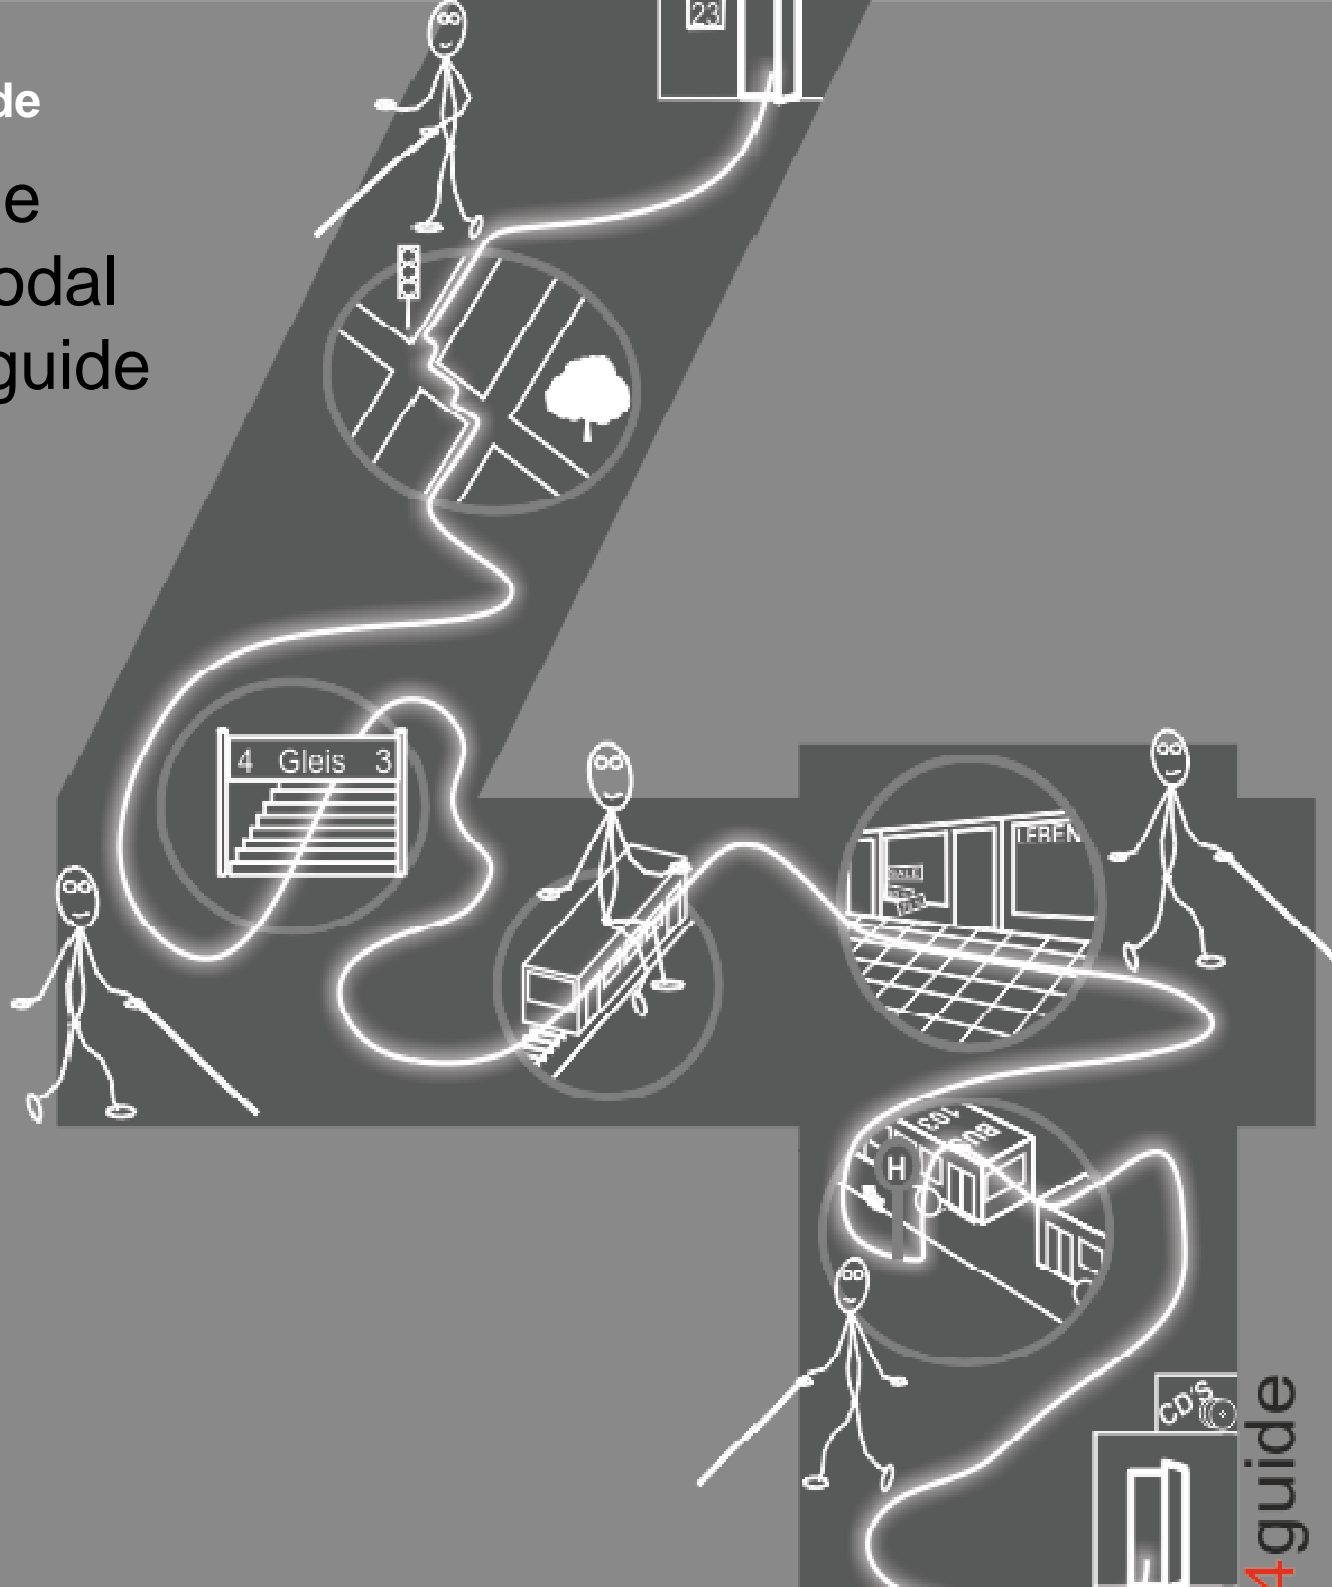

5.Phase - Documentation

- Summary of results
- General information
 - how to use
 - about equipment
 - about maintenance
 - continue and
 - operational measures (interface to service)

Way finding

m4guide
mobile
multi-modal
mobility guide

The goal of the Senate Department for Urban Development is to create equal opportunities for mobility for all Berlin residents. This applies in particular to elderly persons and persons with disabilities.

- Accessible Routes for Pedestrian
- Low kerbs at the main crossroads
- Tactile guidance system at the crossroads
- Acoustic signal at the traffic lights

Comfortable for All

Comfortable for All

Round Table „Barrier-free City“

Chair:

Permanent Secretary for Building and Housing

Members:

Representatives of a wide range of sectors in the economy, including tourism, hotels and restaurants, industry, commerce and transport

- Agenda in 2013 – Tourism for All in Berlin

Köpenick für Alle

Mit dem Audioguide durch
die Altstadt

STIFTUNG **LOTTO**
DEUTSCHE KLASSENLOTTERIE BERLIN

Das Herz von Berlin-Köpenick schlägt in seiner historischen Altstadt: Hier steht, aus der Zeit des Barock, das einzige Berliner Wasserschloss (Museum) und hier im Rathaus stahl der legendäre „Hauptmann von Köpenick“ 1906 die Stadtkasse und brüskierte Preußens Obrigkeit. Romantische Uferpromenaden wechseln mit städtischer Betriebsamkeit, Restaurants bieten Gastlichkeit. Beim Rundgang über die Altstadtinsel wird Geschichte in Geschichten lebendig.

Der GPS basierte Multi-Media-Guide und eine App

Preis: 5,00 € p.P., ermäßigt 4,00 € p.P.
